African Animals Spanish for Transitional and Primary students	Stretch-N-Grow	Splash Day -please dress in swimwear and send dry clothes	Stretch-N-Grow	Kindermusik with Ms. Shelia

Out to Sea We Go

This week campers had the opportunity to explore the open seas. The children were introduced to many of the animals that live in the ocean as well as a vast assortment of plants that grow there. Our discovery tables were full of interesting artifacts that campers could touch, hold and explore including a shark, shark teeth, seahorses, star fish, and a variety of shells. Learning was enhanced with fun art and craft projects that the children could participate in. Projects included making a seascape with the animals that live in the ocean, fish wind socks, and whales that squirt water from their spouts!

Next week the children will travel through the wilds of Africa studying the amazing animals that live on that continent. Ms. Farhana and Ms. Tina will be leading the Primary expedition and Ms. Stephanie and Ms. Sue will be the guides for the Toddler and Transitional classes.

Bubble Day was a huge success! Bubbles in all shapes and sizes floated around the playground as the children chased and tried to capture them. The weather was perfect thanks to a cool front that happened to be passing through!

Lost and Found

Please check your child's bag for an extra, white, boys, t-shirt that might have mistakenly come home with your child last week. You can leave it in the office and we will make sure it finds its way home.

Thank you to Sydney Phan's mom (Jennifer) for providing pizza for the transitional and toddler classes and the teachers and Sharon Harrelson for all the yummy Friday treats!

Calling the main line and not getting an answer? We might be outside with the campers. Please call the **CDSA cell phone: 817-253-9994**
