

"Our children have been attending CDSA for about four years now, and I cannot tell you what a treasure this school has become to us. The effect it has had on our children has been that they've become much more confident, content and disciplined in school and at home. We are often complimented on how "smart" our children are (of course we love hearing that!) and how well-behaved and respectful they've become. While I believe some of this is related to the amount of time you spend with your children, an investment in their education will really allow them to excel. We look at CDSA as a phenomenal investment for our kids, and the staff and educators there not only love what they do, they really love the children they teach. Our children have experienced a better quality of life for having gone there and being educated in the Montessori style of instruction."

Sincerely,
Tim Hammond
